**Sub: Operationalization of Shutdown Co-ordination software and Real-time Operation Management software (OMS)**

This is with reference to the discussion held in 162<sup>nd</sup> OCC meeting on 14.08.2019, wherein it was intimated about the operationalization of software on cited subject. The Shutdown Co-ordination software will manage the processing of planned shutdowns which are presently processed through existing TSOP. The Real Time Operation Management Software(OMS) including an additional application module for managing new element charging process has also been developed. This OMS software will facilitate the real time information exchange such as real time opening/closing codes between control centers and suo-moto instruction from NRLDC to constituents. After thorough checking of all the module wise process flow, the software is under trial run operation for ensuring seamless and trouble free operation.

In the meantime, to get acquainted with the features of new software, a two day non-residential hands on training program has been scheduled on **29<sup>th</sup> and 30<sup>th</sup> August, 2019** at NRLDC, New Delhi.

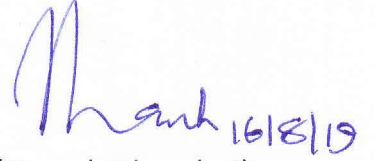

Therefore, it is requested to kindly nominate at least two concerned personnel preferably one outage coordinator and others from real time grid operation from your organization. Kindly ensure the participation from your organization and send the nominations to [gauravsingh@posoco.in](mailto:gauravsingh@posoco.in), [saravana@posoco.in](mailto:saravana@posoco.in), [nrldcoutage@gmail.com](mailto:nrldcoutage@gmail.com) and [shrey.cea@gmail.com](mailto:shrey.cea@gmail.com) latest by **23<sup>rd</sup> August** for carrying out the necessary arrangement. You are also requested to advise the participants to carry laptop for hands on training.

For getting familiarized with the operating procedure of both the new software, the hyperlink to the applications and brief operating manual will be provided shortly on NRPC website.

The username and password for the constituents will be provided to the representatives during the training program

For any queries, you are requested to kindly contact the following concerned executives:
